

FLEXITIONS

STAINABLE FLEXIBLE TRANSITION MOLDINGS

FLEXIBLE
TRANSITION
MOLDING
THAT TAKES
STAIN LIKE
REAL WOOD

Flexitions takes stain just like natural wood and is available in three natural wood grains and textures making for a natural look and feel when stained and finished.

Developed for use with hardwood and laminate flooring applications, Flexitions is the solution to installation headaches when dealing with a curve, arch or radius - great for style and design as well.

Available in stair nose, t-molding, reducer, threshold, and quarter round profiles, Flexitions can be stained and finished to match and or coordinate floor coverings such as wood, laminate, tile, vinyl, stone and more.

FLEXITIONS
